DETAILED ACTION

Response to Amendment

1. Applicant's amendment and remarks received 23 July 2007 have been entered and overcome the objection to claim 19.

Allowable Subject Matter

2. Claims 15-27 are allowed.
3. The following is an examiner's statement of reasons for allowance: Applicant has complied with the formal requirements recited in the previous office action. Claims 15-27 were allowed in the previous office action. The reasons are repeated in this office action.
4. Regarding independent claim 15, the prior art of record neither shows or suggests a plasma lighting bulb comprising, in addition to other limitations of the claim, a plurality of hexagonal patterns formed on an outer surface of the bulb due to an alignment of a plurality of grooves having a predetermined depth. Due to their dependency upon independent claim 15, claims 16-18 are also allowable for the same reason.
5. Regarding independent claim 19, the prior art of record neither shows or suggests a plasma lighting bulb comprising, in addition to other limitations of the claim, a plurality of grooves formed on an inner or outer surface of a bulb, wherein the plurality of grooves forms a plurality of polygon patterns. Due to their dependency upon independent claim 19, claims 20-27 are also allowable.

Art Unit: 2879

6. The subject groove structure for a plasma lighting bulb having a metal wire, as described above, is provided for blocking electromagnetic waves. The design is new and unique to the art.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
